WHAT AN AMERICAN SAYS OF PARLIAMENT .- An American writes from London to the New York Com-

hours yesterday—a friend having kindly sent me a ticket of admission. It is impossible to get in without a ticket signed by a member. Members have no accommodations like our law-makers—the seats run legthwise, and each one will hold about thirty, I should think. Members git with their hats on, unless they are speaking; and a more common, in fact I might almost say rowdy-looking. at of men is seldom met with. The rooms, however, are splendid, and are finished with great taste. There are no chandeliers or lamps to obstruct the view, the entire rooms being lighted by gas from the ceiling, perhaps something on the plan adopted in the Methodist Church in 7th Avenue, New York. The gas lights are eovered by stained glass, so that you can hardly see the flame, and on turning the gas on the building is lighted up as if magic. The surface from which the light comes is about fifteen feet by forty, immediately over the centre of the room.

Northeastern Railroad.

The Company advertise that this important Road will be finished, for the transport of freight and passengers to Florence, by the first of October next. This will unite it with the Cheraw and Darlington Railroad, and, for all practical purposes, will make one clean route from Charleston to Cheraw. The latter point is an old and established centre of trade for a large surrounding district of country in this State and North Carolina. We knew, from experience, that the whole of this trade must soon pass over this Road. The intermediate traffic must also be considerable, and the consequent improvement to the agricultural resources of these districts will be so Esq., Mr. STEWARD HICKMAN, to Miss SOPHIA RUSS. much added to the general wealth of the State. But we all think of the Northeastern Railroad in a more interesting light. We regard it as the basis of a more extended enterprise, which shall, in a few years, through the great Coalfield of North Carolina, connect our city with the capital of that State, and through it with Norfork, in Virginia. - Charleston Mercury.

An Inmate of a French Mad House.—Charenton is the model mad asylum in France and worthy of a visit from all tourists.

The last comer at Charenton is M'me de C---, who was, two winters ago, the belle of Paris. She was equal- RUE, only son of Mr. Edward Rue, aged about 21 years. ly celebrated for her ease, springtliness and beauty. It was believed for a long time that she must surely die; the prompt and skillful action of the family physician ROCKWELL, son of Chester Rockwell, Esq., in the 19 year vanguished the poison, but at the expense of the face. some measure restored to life, her first care was to ask 3 years 5 months and 3 days. for a looking-glass. Her request was imprudently granted. She saw the dreadful truth at a glance; her beauty was destroyed, her eyes were bloodshot, her cheeks swollen, her mouth twisted, and crow's feet and wrinkles fureves on the wreck for some time in silence; she gave a heart-rending shrick; she was a lunatic for life.

The Potato Rot in Massachusetts.—We regret to notice the continued prevalence of the potato mala-

We consider two acres of our own planted with that vegetable, to be hardly worth the digging, and ne of our largest larmers assured us vesterday that he would gladly take for his entire crop what seed was worth last spring when he planted.' The Manchester American has the following:

"A gentleman who passed through Durham, Lee, Dover and New Market on Monday, says the potato vines in these towns are entirely dead, and the putrid potatoes can be smelt in passing by the fields. Farmers Bro.; with mdze. were trying to save portions of the crop by digging, and | 4-U. S. M. Steamer Spray, Price, from Smithville, to A. in Dover twenty-five cents were the current price per H. AN IMMENSE FORTUNE DISCOVERED .- An immense fortune, left by Judge Leonard, a resident of Princeton, H. VanBokkelen. N. J., before the Revolution, the Gazette says, has been found, by the discovery of some old documents, to belong to others than the present holders. It includes a large quantity of land, now very valuable, the majority of which lies in New Jersey. Among other property are about 1,500 acres on Deep Run, towards Amboy; 10,-000 acres at the head of Great Egg Harbor river; 350 acres in Princeton, extending from the centre of the town along both sides of the road towards Rocky Hill, now called Princeton street, and embracing some of the finest improvements; 600 acres on Cape Fear river, N. Savage; with naval stores. C., a valuable coal operation on it, and property in various other locations. The heirs are very sanguine of Marshall, from New York. obtaining the property.

Courtship and Marriage by Express.—A wedding took place on the lightning express train of the Michigan Central Railroad vesterday, between Kalamazoo and Galesburg. The happy couple were Mr. W. H. Webster, of Otsego county, N. Y., and Miss Emeline C. Worth; with mdze Beach, of Gurnsey county, Ohio. They were married by John Edwards, Esq., a justice of Kalamazoo. We are informed that the courtship took place during the ride from Chicago to that point. When people of the & Brown; with lumber, shingles, &c. opposite sex do their courting in the short space of some four or five hours, while riding at the rate of about thirty-two miles an hour, and marry while riding at the same lightning speed, we think no one will dispute that this is a fast age. The happy pair went to Cleveland by steamer last evening.—Detroit Advertiser, August 28. INTERESTING TO THE MONUMENT BOARD.—The Washington Union says: Mayor Magruder received on Wed-

nesday last a letter, dated Gordonsville, Virginia, from Robert J. Sibert, agent for the manufacture of a "superior article of pure white hydraulic cement." asking with naval stores, &c. the Monument Board to try it in the construction of the Washington National Monument. Mr. Sibert offers to forward to the Board a barrel of his cement, so that it can be tested. He adds, as a closing remark, that any quantity can be furnished, if, upon testing it, it should & Co.; with lumber. prove suitable for use in the construction of the Monu-

It may be that it is not generally know to the public that the Washington National Monument has been roofed over; that all work upon it has been stopped for more naval stores, &c. than a year past; that it has been raised but four feet since its construction was intrused to Know Nothing mismanagement; that the treasury is in a most distres- & Martin; with lumber. singly embarrassed condition; that there is not enough | 9-Schr. The greatest natural ornament to the "human form divine," is unquestionably a fine, luxuriant, healthy growth of hair. It has been so esteemed in all ages of the world, and Parliamentary proceedings are much like the doings in among all nations, savage und civilized. Hence, the Indian our own Congress. I was in both houses two or three brave regards the scalp of his enemy as his greatest trophy. For a similar reason, the fashionable belle often disguises the region of vanity, as well as her other phrenological organs sell

with borrowed locks. He who should discover a mode of preventing the hair from showing the inroads of envious Time by turning prematurely gray, a method by which it could be restored when falling off or turning white, and a way of promoting its continued and luxuriant growth, would be justily entitled to rank among the benefactors of the human race. FOR THE WEEK ENDING SEPT. 10TH, 1857. Since our review of Thursday last we have no material aleration to report in out-door business. The want of rain which we have experienced for several weeks past has caused the streams above tide-water to become so low that only our lighest draught boats can now ply between this place duce. The receipts per railroad have also been meagre, and Tuesday, when yellow dip advanced 5 cents. In Spirits Turpentine there has been more activity, and by reference to our table below it will be seen that the transactions have been larger than for some time past, at prices fluctuating from 43 to 44 cents-closing at 43 cents, which is an advance for the want of stock to operate upon, the transactions have been limited; prices of Nos. 1 and 2 remain the same; Comthat they will endeavor to keep on hand a stock of Boots mon went up 21 a 5 cents in the early part of the week, but closes at quotation of Thursday last. Tar is in demand: taken at \$1 50 per bbl. No Cotton on market, and we therearrived very sparingly, and only small parcels now in first 33 cts; Hides dry good 14a15; Hides, do damaged, 7; Hides, hands; owing to which the price has gone up about 50 cents. green, 8; Hides, do. salted, 9; Calfskins, green, 85; Sheep-The Grain market remains without material change ;- Corn prices tend downward. The stock of Bacon and Pork is small, and in consequence of the high prices very little has been done, as dealers are not disposed to operate to any exdown; or \$15 one half down, the rest on delivery of the tent. The market is well supplied with Liverpool and Alum Salt, and rules dull at notations. Sugars are in moderate

TURPENTINE-Ruled steady at last Thursday's quotation given. Wood-cutters, Coopers, Farmers, &c., are wanted; ly per railroad, as owing to the low stage of the water courses little or none has reached here from above tidewater ;- in moderate enquiry from shippers and distillers .-The week's sales foot up only 2,300 bbls., viz:

Rosin-Has been brought to market slowly for some time past, and the stock of all descriptions is unusually small .-The Common article advanced 21 a 5 cents during the early part of the week, with sales of small parcels at \$1 45 a \$1 47% per bbl., and \$1 50 per 310 fbs.; on Tuesday, however, it went back, and 1,700 bbls. sold at \$1 45 per 310 lbs. and Wednesday 470 bbls. at \$1 35 for medium bbls., and \$1 40 per weight. No. 2 is in demand, but owing to the small quantity offering very few sales have been made. We quote at \$1 60 to \$2 50 per bbl., as in quality. No. 1 has been in demand, and rules exceedingly firm at previous rates. Sales for the week comprise some 12 a 1500 bbls. at extremes ranging from \$3 to \$6 per bbl., as in quality.

TAR-Continues to be in fair enquiry from shippers and receipts for several weeks past have been meagre. Only one or two small lots have sold since our last at \$1 50 per

BEEF CATTLE, &c .- The market continues to be poorly supplied with beeves, and as none of consequence have been brought in for a few weeks past, the stock in butchers' hands has become quite small. In fair demand at 51 a 61 cents, as in quality. Sheep are also in light supply, and sell quick at from \$1 75 to \$2 50 each, according to quality.

COFFEE-Nothing new to report. There is a mederate supply of most descriptions in store, and only a retail demand. See table for quotations, as in quantity and quality. Corron-None received, and no sales.

CORN MEAL-Is in moderate stock, and demand limited .-Selling from the granaries at \$1 10 a \$1 15 per bushel, in lots as wanted.

EMPTY BARRELS-No change of consequence to make in the price of Spirits Turpentine barrels. The meagre receipts for some weeks past have caused the stock to become materially reduced, and we note a fair demand existing ;-sales, however, of only small parcels during the week at \$1 80 a \$2 each for second hand, as in quality.

FLOUR-Since our review of Thursday last the receipts of State brands have been exceedingly small, in consequence of which the stock in first hands has become nearly all worked off, and prices have gone up 50 a 75 cents. We notice sales during the week of a few parcels at \$7 25 a \$7 50 per bbl. for superfine-closing at highest rate; -these figures, however, can hardly be considered a fair criterion of the market, for should the receipts during the coming week be worthy of note, they would certainly go down. See table for quotations of other grades.

GRAIN .- CORN-The market is very well supplied at present, and has ruled inactive during the week just ended .-The advices from other markets continue to prove unfavorable, and as a consequence dealers here show no disposition whatever to operate. The receipts, however, have been small, comprising only one cargo of 2,000 bushels, 1,000 of which went at 75 cents per bushel, and 1,000 on private terms. -Oars-None received for a week or two past: fair supply of former arrivals in dealers hands, and demand light. See table for quotations .- PEAS-There is a moderate stock of Cow on market, and demand light. Sale of one or two small lots during the week at \$1 per bushel for old. RICE Stock of clean in store is fully fair, with a 131 moderate enquiry for retailing purposes, and sales in the -In the absence of receipts there have been no transactions since our last. Quotations nominal. See table.

HAY-Both Northern and Eastern make is in good stock, and the market rules quiet. A lot of 283 bales Eastern was received on Thursday last, and changed hands at 80 cents per 100 lbs. Last sale of Northern was at 60 cents. Molasses-Has ruled quite dull during the week, and we

note a good supply on market. See table for quotations according to quantity and quality. POTATOES-Sweet have been brought in quite freely for the week, and show a decline; selling from carts and boats at \$1 a \$1 25 per bushel. Irish are scarce and enquired for

bring \$1.50 per bushel, and \$4.50 per bbl. Provisions .- Bacon .- The receipts of N. C. cured have been moderate for a few weeks past, and with a limited demand the market rules quiet. The supply in first hands is fully sufficient for present uses, and prices have rather a downward tendency. We notice sales for the week of only 10 a 12,000 lbs, at 16% a 17 cents for hog round, and 17 a 17% cents per lb, for hams-the bulk of it at lowest figure. The receipts of Western make continue meagre, and the stock on market has become materially reduced; prices, however, remain without change. We quote small sales from store at 16 a 164 cents for sides, and 14 a 144 cents per lb. for shoulders, as in quality; some few lots of dry salted on market, which are selling at 15 a 152 cents .- LARD .- We have nothing new to note in this article. The market is entirely bare of N. C. make, and quotations are merely nominal. See table. Western make is in moderate demand : receipts light, and but a small supply on market. We quote at 16% a 17 cents per fb., as in quality. Pork. Northern is in fair enquiry, and with light arrivals the stock has become quite light. See table for store prices, in quantities to suit. Salt-Remains about the same as reported in our last .-We note the receipt coastwise of 550 sacks Marshall's fine. which changed hands on private terms-selling from wharf in lots to suit at \$1 50, and from store at \$2 per sack. See

table for quotations of other descriptions. SHINGLES-Have been in rather better demand during the past week, and we note sales of about 400,000 at \$2 for Common, and \$5 a \$5 50 per M. for Contract.

Timber .-- We have nothing of consequence to report, as the receipts continue limited. In fair demand for mill purposes, and prices are a shade higher. See table. FREIGHTS-Coastwise have ruled quite dull for the week.
